WHY TEACHERS USE MY HERO'S ORGANIZER TOOL IN THE CLASSROOM...

Teachers use MY HERO's resources for thematic based learning.

Create a web based playlist/reading list for your students on a specific theme or subject by searching the MY HERO digital library for inspiring stories, art, audio, and films from around the world. Organize media into a directory web page that students can access online at school, at home, or in the library. Students are then able to share the link with parents to continue the discussion on specific subjects/themes at home.

Teachers use the Organizer Tool to publish a directory of student work.

Search MY HERO's database for stories, art, audio and video files created by students and then collect them into one directory web page for the class and parents to view! This web page can be linked to the school web site, to share the hero stories that your students have published on MY HERO, with the rest of your learning community.

How Not-for-Profit Educational Programs use MY HERO's Organizer Tool...

Educators working with Non Profit Organizations, like Peace Pals, The Boys and Girls Clubs, and Art Miles Mural Project who partner with MY HERO, can utilize our web authoring tools to honor and identify heroes in their community. Members from these organizations are invited to create and share art, stories and films on MY HERO. Educators showcase the work created by their organization in one unique directory web page using the Organizer Tool. MY HERO helps these organizations showcase their good work and community heroes with their membership, and with our audience of students from around the world.
